

Reporting a plane theft

On the night of March 13 to 14, the owner of an aeronautical dealership reported the theft of one of his models for sale. The victim has lost the plane's papers but has in his possession the technical characteristics of the stolen machine.

Number + type of engines	1 jet
Location of engines	In the rear of the fuselage
Wing shape	Straight wings
Wing attachment	Mid, through fuselage
Landing gear configuration	Nose wheel landing gear
Tailplane configuration	Double tail, two vertical stabilisers
Wing-tailplane/foreplane configuration	Tailboom(s) holding horizontal and/or vertical stabilisers

Shortly before the plane was stolen, the owner of the dealership said he heard a man on the phone. He had a strong Russian accent.

Estimated value of the damage: €55,000
